Professional Summary

Final-year Computer Science student and UI/UX Designer with 4 product design projects focused on creating clear, user-centered digital experiences through user research, information architecture, user flows, wireframing, prototyping, interaction design, usability testing, and visual design. Experienced in translating product problems into structured web and mobile experiences, from research and flows to responsive high-fidelity interfaces and design systems, with strong communication and collaboration skills.

Skills

UX / Product Design: User Research | User Flows | Information Architecture | Wireframing | Prototyping | Interaction Design | Usability Testing | Design Systems

UI / Visual Design: UI Design | Visual Design | Color Theory | Typography | Layout | Responsive Design | Components

Tools: Figma | FigJam | Framer | Notion | Canva

Technical: Front-End Fundamentals | HTML | CSS

UI/UX Projects

Payano

Jul 2026 – Aug 2026

UI/UX Designer | *Student Ride-Sharing Mobile App*

- Designed a student ride-sharing experience focused on reducing travel cost while improving safety, trust, and ease of finding compatible rides.
- Used findings from a 26-student survey conducted by the client and researched existing ride-sharing patterns to identify concerns around travel cost, traffic, crowded transport, safety, and trust.
- Defined 4 core user flows for ride discovery, matching, booking, and communication, translating research findings into structured mobile interfaces.

FrameHouse

Jun 2026

UI/UX Designer | *Creator-First Studio Discovery & Booking Platform*

- Designed a creator-focused platform for discovering, comparing, and booking professional studios for podcasts, video production, photography, and livestreaming.
- Conducted secondary research and competitive analysis to explore creator studio discovery, comparison, availability, pricing, and booking patterns.
- Mapped a 6-stage end-to-end journey across discovery, recommendations, studio details, booking, payment, and confirmation, then designed the corresponding multi-step experience.

Syntri

May 2026 – Jun 2026

UI/UX Designer | *AI Productivity Workspace Concept*

- Designed an AI productivity workspace concept for organizing tasks, information, and work activities in a structured environment.
- Used online research to explore how existing productivity tools support different parts of users' workflows and translated the findings into product structure and interface decisions.
- Structured information architecture and interface patterns across 5 workspace areas: projects, tasks, notes, prompts, and activities.

BuildTrack

Jan 2026 – Feb 2026

UI/UX Designer | *Game Development Project Management Platform*

- Designed a web-based project management experience for indie game developers to track features, connect playtest feedback with gameplay changes, and manage builds.
- Conducted an online survey with 9 indie game developers to understand feature tracking, playtest feedback collection, and build/version tracking workflows.
- Created 4 core design deliverables—information architecture, user flows, wireframes, and responsive high-fidelity interfaces for project tracking workflows.

Education

Kumaraguru College of Technology

2024 – 2027

B.E. Computer Science and Engineering

Thiagarajar Polytechnic College

2022 – 2024

Diploma in Computer Science and Engineering

Certifications

- Digital Skills: User Experience - Accenture / FutureLearn, 2026
- Learn Figma: UI/UX Design Masterclass - Udemy, 2026
- Figma Essential for UI/UX - Udemy, 2026
